Asking for Help

A: Sometimes we encounter problems that we are unable to solve by ourselves. At those times, we need to ask someone to help us.

B: When asking for help, always remember to be polite. Remember that you are asking for a favor.

A: Also, don't just ask anyone for help. See if the person can actually help you with your problem. State clearly what your problem is and what you're asking your friend to do. Your friend will know if he or she is able to help, and will tell you accordingly.

B: Yes, asking the right person for help is very important.

A: Again, do not forget to say "thank you." Be appreciative and grateful that someone has done something to help. That way, if you need help again, your friend will be willing to help.

B: Of course, in our dialog, Cooper is very happy because Dean fixed the virus on his PC. It's a happy ending. Also, don't forget to help others, too, when they need your help.
